

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PUBLISHERS' NOTE.

VOLUME SIX of the English Catalogue of Books comprises the works published in the United Kingdom from January 1898 to December 1900, titles and index not only in one volume, but also in one alphabet. The main entry of each work begins with the author's surname (if it is on the title-page) in **heavy type**. As an Index to these 'Author' records, the title (commencing with its most important word or with its first word) is repeated, in the same alphabet, with that word in *italics* which in the main entry is in thick type.

The 'Transactions' of Learned Societies are recorded in Appendix A; 'Series' issued by some publishers in Appendix B; books on Angling, Fish-culture, and kindred subjects (published between 1888 and 1900) in Appendix C; while Appendix D contains the Names and Addresses of the firms (both English and American) who published the books herein catalogued.

We have to tender hearty thanks to many Publishers, Secretaries, Authors and Bibliographers, who have assisted us in making this book more correct and comprehensive than it otherwise would be.

St. Dunstan's House, October 28, 1901.

The Names and Addresses of PUBLISHERS are given at the end of this volume.

THE ENGLISH CATALOGUE

COMPRISING

BOOKS PUBLISHED IN GREAT BRITAIN, 1898-1900,

AND THE

PRINCIPAL BOOKS IMPORTED FROM THE UNITED STATES OF AMERICA.

TITLES AND INDEX IN ONE ALPHABET.

. The word printed in *Italics* in the 'Classified' lines is that under which the book will be found described in the entries commencing in **thick** type.

. In addition to the names of book sizes, such as cr. 8vo., royal 8vo., &c., the sizes are also given where possible in inches, 1 inch = 2½ centimetres.
